Addendum #1

The Request for Information for “Turnkey Transit Operations” is hereby clarified and/or amended by the Twin Cities Area Transportation Authority, as noted in this Addendum Number #1. Receipt of this Addendum shall be acknowledged in your Response.

The deadline for responses has been extended to June 2, 2025 by 5pm EST.

TCATA RFI Question Responses

For all ridership data requests, an Excel spreadsheet will be provided with passenger counts indexed by trip type (fixed, on-demand, etc.), passenger type, and day. Specific breakdowns will be provided at a later time.

- Does TCATA anticipate awarding multiple contracts for these services?
 - One contract
- What is the anticipated daily trip volume?
 - See Data spreadsheet provided
- What is the average trip distance?
 - Unable to provide this information
- What is the total square mileage of the service area?
 - Currently serving: ~40 square miles
 - Expanded Urbanized Service Area: ~100 square Miles
- Would TCATA consider expanding the response page limit from 12 to 20 pages to allow for a more detailed submission, particularly to address the breadth of topics outlined in the RFI?
 - Yes

Twin Cities Area Transportation Authority

275 East Wall Street, P.O. Box 837, Benton Harbor, MI 49023

- To better tailor our response and provide relevant operational insights, is TCATA able to share recent ridership data in Excel format, ideally broken down by route, stop, and hour? This level of detail would allow us to more precisely address service planning and technology integration opportunities.
 - We are unable to provide this information
- Can we engage with your solution evaluation team to demonstrate the capability of our software to ensure that the functionality and capabilities are clear prior to the RFP release?
 - Yes, please contact Todd Shurn to coordinate (tshurn@tcatabus.org).
- Can we respond to the RFI without a System Operator so that we can demonstrate our strengths with all modes of transit including deviated fixed route, demand response, paratransit, NEMT and microtransit all on one platform.
 - No, we are looking for a turnkey solution and encourage teams to partner up to deliver a full solution.
- Will presentations be allowed after the RFI is submitted?
 - TCATA reserves the right to seek additional information from RFI teams.
- Will the budget for this project be published with the RFP?
 - TCATA's latest budget is provided at the end of this document.
- Are the 22 vehicles operated at maximum capacity? Any spares?
 - 22 vehicles are currently in our fleet for on demand and line haul service.
 - VOMS (vehicles operated in annual maximum service): Roughly 20 vehicles could be run on our busiest day(s).
 - We typically have ~16 vehicles on the road at a time.
- Does TCATA own MDT tablets at the time? iOS or Android?
 - Yes, TCATA owns tablets but only on On-Demand Vehicles
- Does TCATA have a preferred System Operator in mind?
 - No, the goal of the RFI is to ensure the subsequent RFP maximizes the number of proposals and opportunities for expanded and improved service.
- How will TCATA score your evaluations.
 - This is an RFI. No scoring will occur.
- Will a WBE (Women's Business Enterprise)/MBE (Minority Business Enterprises) be required?
 - WBE and/or MBE is not required for this contract, but the vendor selected will have to pursue a DBE goal with additional contractor services attained (e.g. trades workers) to meet compliance needs.
 - This is an RFI. No vendor selection will occur.

(269) 927-2268 • Fax (269) 927-2310
275 East Wall Street, P.O. Box 837, Benton Harbor, MI 49023

- Our Current DBE goal is 3% for the 2025 FY
- Will Eligibility be a part of the scope?
 - DBE, WBE and/or MBE eligibility is not required for this contract
- Are you collecting cash payments at the time?
 - Yes.

MTM

- Who currently operates the TCATA fixed route, demand-response, and ADA paratransit services? Is this done in-house or outsourced to a transportation provider?
 - TCATA directly operates all services today.
- Please provide more information on how the fixed route buses “flex” along their routes.
 - Fixed Route busses flex to specific, pre-approved stops along their routes. To be picked up at one of these stops, passengers should call the dispatch number so that the dispatchers can inform the drivers. To be dropped off at one of these locations, the passenger can inform the drivers when boarding the vehicle.
- If the fixed route buses can “flex” along their routes, how do you ensure on-time adherence to your fixed route schedules?
 - We ensure on-time adherence by using set flex stop locations
- Please confirm that your ADA paratransit services are provided door-to-door.
 - From our ADA policy: “Under the ADA, TCATA shall provide complementary paratransit service to origins and destinations within corridors with a width of three-fourths of a mile on each side of each fixed route. The corridor shall include an area with a three-fourths of a mile radius at the ends of each fixed route. [ADA Paratransit] Service is origin to destination, or door-to-door. Regular [Non-ADA Paratransit] TCATA demand response service is curb-to-curb.”
- Who currently determines the eligibility of individuals for ADA paratransit service?
 - Our Office Manager/Receptionist determines eligibility based on the materials provided with the passenger’s application
- Please describe the ADA eligibility determination process in more detail.
 - Passengers complete a Reduced Fare Card Form. They then return this form and application materials to TCATA’s front desk receptionist (our

Twin Cities Area Transportation Authority

275 East Wall Street, P.O. Box 837, Benton Harbor, MI 49023

office manager). The Receptionist then processes the application and creates a reduced fare card. These cards are then mailed to the passengers.

- Does TCATA currently charge fares to passengers using fixed route, demand-response, and ADA paratransit services? Or are the programs currently fare-free?
 - Fares are charged for all TCATA services:
<https://www.mywaythere.org/farespass.asp>
- Does TCATA plan on providing the current revenue and non-revenue vehicles to the chosen contractor to use for fixed route, demand-response, and ADA paratransit services?
 - Yes.
- Does TCATA plan on having the chosen contractor perform all maintenance on the TCATA-provided vehicles?
 - Yes.
- Does TCATA anticipate the need for the chosen contractor to supplement the current fleet with any additional vehicles?
 - Yes, but only if it is necessary for insurance coverage
- What is TCATA's fleet replacement schedule? Are any vehicles due to be replaced soon?
 - TCATA is permitted to replace vehicles after they reach their usable life of 7yrs or \$200,000 miles for a cutaway, 4yrs or \$150,000 for the Vans (whichever comes first)
 - TCATA is currently submitting for the release of 8 vehicles. These will be replaced with 5-10 vehicles depending on the operator's equipment choices. For replacement and has funds secured for three (3) low emission vehicles.
- How is vehicle fueling currently being done (i.e., on-site fuel/propane tanks, wet hosing, off-site, etc.)?
 - Tanks onsite for propane and gas, and chargers for EVs – which covers the entire fleet.
- How does TCATA anticipate handling fuel with the chosen contractor for fixed route, demand-response, and ADA paratransit vehicles? Does TCATA anticipate fuel costs will be the responsibility of the contractor or TCATA?
 - Fueling infrastructure is on-site, the contractor is responsible for purchasing and distributing fuel.
- Does TCATA plan on allowing the chosen contractor to use the established facility in Benton Harbor to manage the fixed route, demand-response, and ADA paratransit services?

Twin Cities Area Transportation Authority
(269) 927-2268 • Fax (269) 927-2310
275 East Wall Street, P.O. Box 837, Benton Harbor, MI 49023

- Yes.
- Does TCATA plan to provide the current office furniture, phones, etc. being used at the facility in Benton Harbor to the chosen contractor to use for operations?
 - Yes.
- The RFI mentions TCATA is operating with “limited technology systems.” Please describe what is currently being used today and what functions TCATA is lacking and what functions you would like to see in the future state.
 - TCATA currently uses PCTrans Software for dispatching. There are also tablets used on the On-Demand vehicles. With this software we are able to track basic data such as passenger counts per day, on and off stops, and driver assignments. However, PCTrans does not conduct in-depth analysis and does not release data in a user-friendly way (i.e. the excel files need a lot of cleaning to be used for analysis). We also lack dispatch software that can help determine the drivers’ best routes for pickups/drop offs.
 - TCATA has on vehicle cameras
 - We also have Verizon trackers on each vehicle that keeps track of vehicle locations, driving speed, and mileage, etc. This system is also used for maintenance tracking.
- Please describe how fixed route schedules are developed and managed today, as the RFI indicates there is no CAD/AVL system in place.
 - TCATA staff makes manual schedule changes and publishes them manually via GTFS and printed customer schedules distributed onboard buses.
- Please describe how demand-response and ADA paratransit trip reservations are currently handled, as the RFI indicates there is no scheduling system in place.
 - Customers call the phone line, tell the dispatcher where they are located and where they wish to go. The customer is then entered into a queue for transportation. There is no manifest and very few pooled trips, as a result.
 - ADA passengers are required by Federal Regulations to call at least 24hrs in advance to receive the full time-frame benefits of an ADA trip. If they do not call in advance, they are put in a queue with non-ADA passengers.
- Please describe how demand-response and ADA paratransit services are currently scheduled, as the RFI indicates there is no scheduling system in place.
 - See previous response
- What management positions are currently in place to oversee the TCATA fixed route, demand-response, and ADA paratransit services (i.e., General Manager, Operations Manager, Safety and Training Manager, Maintenance Manager, etc.?)

Twin Cities Area Transportation Authority
(269) 927-2268 • Fax (269) 927-2310
275 East Wall Street, P.O. Box 837, Benton Harbor, MI 49023

- Currently TCATA has a Director, Deputy Director and Chief Safety officer. Selected vendor will have flexibility to define and staff management positions to satisfy the TCATA contract, Federal and State of Michigan regulations. It anticipated there will be at least 1 TCATA management position to ensure compliance.
- What position titles are included in the “5 maintenance personnel” listed in the RFI?
 - One (1) Maintenance Coordinator (supervisory position), three (3) maintenance assistants (including a bus washer/maintenance assistant), one (1) custodian.
- What position titles are included in the “6 administrative staff” in the RFI?
 - Executive Director, Deputy Director, HR Coordinator, Compliance Assistant, Grants/Procurement/DBELO Coordinator, Operations manager/Chief Safety Officer. We also have a Receptionist/Office Assistant who was not included in the original 6 admin staff
- Does TCATA have a current role that takes calls for demand-response and ADA paratransit reservations? If so, which position is this and where does it fall in the total count of employees as listed in the RFI?
 - Two (2) Phone answerers take both ADA and Non-ADA demand-response calls. They work in the dispatch department
- Does TCATA have a current role that handles the scheduling for demand-response and ADA paratransit trips? If so, which position is this and where does it fall in the total count of employees as listed in the RFI?
 - Three (3) Dispatchers assign both ADA and Non-ADA demand-response trips to vehicles. They work in the dispatch department
- Which position titles are currently part of the union?
 - Drivers, Mechanics, and Dispatchers. Everyone except administrative staff and supervisors.
- The RFI mentions, “TCATA is also open to a future partner to evaluate the feasibility of generating new revenue through future advertising partnerships.” Please provide examples of “future advertising partnerships” that TCATA may be interested in using in the new contract term.
 - We have had several local businesses reach out to us inquiring about advertising on our vehicles. We have not done this in recent years but are very open to vehicle advertising as a revenue stream.
- When does TCATA hope to begin the contract resulting from the upcoming RFP?
 - October 1, 2025.

275 East Wall Street, P.O. Box 837, Benton Harbor, MI 49023

- Is TCATA interested in expanding service to include a microtransit option?
 - Yes, if it is fiscally responsible.
